COVID Vaccine Delivery Management Process

Vaccine is packaged at Roy Romanow Provincial Lab (RRPL) in a Credo Cube with a Data Logger to monitor temperature

Vaccine is delivered to location on the route

Credo Cube is opened at first delivery point & Data Logger is checked for potential cold chain break

In the event you experience any technical issues with the Data Logger please contact the vendor (SensiTech) directly at 1-512-279-2522 or by email at sensitech.support@carrier.com

If a checkmark ✓ is on the data logger screen the shipment did NOT experience a cold chain break and the data logger can remain in the Credo Cube

If an X is on the data logger screen the shipment potentially experienced a cold chain break and the data will need to be downloaded off the data logger onto a PC or Laptop (via USB) that has the TempTale Manager Desktop V8.3

freezer or fridge and mark **DO NOT USE**

Quarantine the vaccine in a

temperature monitored

software installed on it Download data log

If you are **NOT** the last destination:

- a. Remove the package of vaccine from inside the Credo Cube that is addressed to your location, but do not remove the data logger
- b. Repack and close the Credo Cube as per how it was received.
- c. Have designated transport **deliver to next destination**.

Using ADOBE PDF compatible reader software Download the data from the Data Logger.

data log immediately!

- 1. Plug the data logger into a USB port on your PC or laptop that has the **TempTale Manager Desktop V8.3 software** installed on it
- 2. A message on the screen will indicate that software is being configured and prompts the operator when ready for use (approximately 10 seconds)
- 3. Click on the TTUltraUSB drive
- 4. Open the PDF file
- 5. Print a copy (files cannot be saved)

In the event you experience any technical issues with the **TempTale** software please contact the eHealth Support Desk by phone at 1-888-316-7446 & select 1 and then 5

If you ARE the last destination:

Remove the data logger from Credo cube and press and hold the Stop button (1-3 seconds) and watch for the Stop sign to appear

Email Temperature Log and Cold Chain Break Report form to appropriate individuals and Ministry of Health

Arrange for Credo Cube and data logger to be returned to RRPL.
